

Child Protection and Safeguarding Contacts

Introduction

UTC Heathrow (UTC) recognises its legal duties and takes seriously its responsibilities to protect and safeguard the interests of all students. The procedures of the ALET Child Protection and Safeguarding Policy aim to provide a framework, which ensures that all practice in the area of child protection is consistent with stated values and procedures that underpin all work with children and young people. Safeguarding incidents can happen anywhere and staff should be alert to the possible concerns being raised in schools. For guidance refer to the latest editions of the London Child Protection Procedures and Keeping Children Safe in Education 2022.
